

## Adaptive General Reasoning Test (Adapt-g)

Based on Computer Adaptive Testing (CAT) technology, the Adapt-g is an efficient way of yielding maximum information in minimum time. The assessment adapts to the respondent's ability level, allowing for accurate and precise measurement using fewer items than traditional tests.

### Subtests & Constructs

**Verbal Reasoning:** Basic vocabulary, verbal fluency, and reasoning using words. Suitable for sales, administration, customer service, and supervisory roles.

**Numerical Reasoning:** Logical and efficient use of numbers. Suitable for roles requiring a fair level of numerical ability, including accounts, administration, sales, technical, and customer service roles.

**Abstract Reasoning:** Abstract logical reasoning using new information beyond prior experience. Least affected by previous education and achievement.

### Intended respondents + Classification status

Adults 18 years and above · Suitable across the full range of ability levels · Used for selection, identifying training potential, and promotion decisions · Classified as a psychological in nature by the Professional Board for Psychology.

### Administration, Reporting, Costs and Training

#### Report Sets

Adapt-g Standard Report Set

#### Credit Usage

Standard report set: 2 credits

#### Scoring and Reporting

Scoring and reporting via the Psytech GeneSys Online platform. Credits are used only when reports are generated.

#### Administration and Timing

Online administration · Approximately 22 minutes to complete, excluding administration time

#### Manuals

Adapt-g Technical Documentation · South African calibration and research reference

#### Training

Psytech SA offers training on the use and interpretation of Psytech ability assessments. Attendance is not compulsory for HPCSA-registered psychology professionals. For more information, please request our training catalogue via [info@psytech.co.za](mailto:info@psytech.co.za).
